To whom it may concern,

- **Student: Bhaivab, Vibhu**
Project title: *DEM study of interaction between a solid body and a granular medium*
Project type / ECTS: Master semester project / 12 ECTS
Academic year / semester: 2021–2022 / 2-semester project
Role / co-supervisors: Supervisor: Antonio Joaquin Garcia Suarez
Official Infoscience record: <https://infoscience.epfl.ch/handle/20.500.14299/194290>
- **Student: Cornet, Arthur**
Project title: *Multiscale modeling of 1D site response analysis with data-driven computational mechanics and discrete-element method*
Project type / ECTS: Master semester project / 6 ECTS
Academic year / semester: 2021–2022 / Spring semester
Role / co-supervisors: Co-supervisors: Antonio Joaquin Garcia Suarez; Sacha Wattel
Official Infoscience record: <https://infoscience.epfl.ch/handle/20.500.14299/194291>
- **Student: Jaques, Louis**
Project title: *Development of a DEM simulation of the interaction between a shoe and soil*
Project type / ECTS: Master semester project / 6 ECTS
Academic year / semester: 2021–2022 / Spring semester (record date: 2022-06-06)
Role / co-supervisors: Co-supervisors: Manon Voisin–Leprince; Antonio Joaquin Garcia Suarez; Jean-François Molinari
Official Infoscience record: <https://infoscience.epfl.ch/handle/20.500.14299/194305>
- **Student: Toure, Marc**
Project title: *Outsole-and-soil contact simulation with the FEM*
Project type / ECTS: Bachelor semester project / 6 ECTS
Academic year / semester: 2021–2022 / Spring semester
Role / co-supervisors: Supervisor: Antonio Joaquin Garcia Suarez
Official Infoscience record: <https://infoscience.epfl.ch/handle/20.500.14299/194292>
- **Student: Hatstatt, Arthur**
Project title: *Heat transfer in layered media*
Project type / ECTS: Bachelor semester project / 6 ECTS
Academic year / semester: 2021–2022 / Spring semester
Role / co-supervisors: Supervisor: Antonio Joaquin Garcia Suarez
Official Infoscience record: <https://infoscience.epfl.ch/handle/20.500.14299/194293>
- **Student: Croquenois, Paul**
Project title: *Heat transfer in layered media*
Project type / ECTS: Bachelor semester project / 6 ECTS
Academic year / semester: 2022–2023 / Spring semester (record date: 2023-06-30)
Role / co-supervisors: Co-supervisors: Antonio Joaquin Garcia Suarez; Jean-François

Molinari

Official Infoscience record: <https://infoscience.epfl.ch/handle/20.500.14299/198608>

- **Student: Sangiorgio, Nur Cristian**

Project title: *Convergence properties of phase-space iterative solvers*

Project type / ECTS: Master semester project / 12 ECTS

Academic year / semester: 2023–2024 / Spring semester (record date: 2024-06-07)

Role / co-supervisors: Co-supervisors: Antonio Joaquin Garcia Suarez; Jean-François Molinari

Official Infoscience record: <https://infoscience.epfl.ch/handle/20.500.14299/208527>

- **Student: Tochona, Yevheniia**

Project title: *PINNs applied to dynamic friction*

Project type / ECTS: Master semester project / 12 ECTS

Academic year / semester: 2024–2025 / Fall semester (record date: 2025-01-14)

Role / co-supervisors: Co-supervisors: Antonio Joaquin Garcia Suarez; Gaëtan Cortes

Official Infoscience record: <https://infoscience.epfl.ch/handle/20.500.14299/242739>

- **Student: Salz, Mathieu David**

Project title: *Solving Friction Problems using Physics-Informed Neural Networks and Operators*

Project type / ECTS: Master semester project / 12 ECTS

Academic year / semester: 2024–2025 / Spring semester (record date: 2025-06-06)

Role / co-supervisors: Co-supervisors: Jean-François Molinari; Antonio Joaquin Garcia Suarez; Gaëtan Cortes

Official Infoscience record: <https://infoscience.epfl.ch/handle/20.500.14299/251312>
